

OUR MISSION

To achieve excellence in customer satisfaction through continuous growth and constant improvement.

Since our founding in 1938, Womack Electric Supply has grown to become one of the top electrical distributors in the nation. Headquartered in Danville, Virginia, Womack has 18 locations (including a Central Distribution Center) located throughout North Carolina and Virginia.

Over the past 75 years, there have been two constants in the electrical supply industry – change, and our commitment to adapt to change to better serve our customers. At Womack Electric Supply, we understand that our own success is a direct result of the success of those we serve. This is The Womack Way. Our customer centric philosophy serves to focus our efforts on consistent conformance to customer expectations for quality products and professional service. We articulate this philosophy every day in the capabilities and pride of workmanship of every Womack Electric employee serving you. After all, The Womack Way isn't about Womack Electric Supply at all. It's about you and your success, and that will never change.

PRE-FAB ELECTRICAL WIRING ASSEMBLIES

Understanding your needs

It's your business, and you want it to be as successful as possible. Productivity is the key to making that a reality.

Womack Electric Supply understands the many factors that erode your company's profit margins - compressed time schedules, product sourcing delays, high labor cost and others, just to name a few. Unproductive activities negatively affect your performance, reputation and bottom line.

Wouldn't it be great to utilize products on your

job site designed to boost your productivity?

The prefab wiring assemblies and solutions from Womack Electric Supply do just that – boost your productivity and profitability! Our pre-fab wiring solutions eliminate unproductive activities, allowing you to focus on what's important – getting the job done, on budget and on time.

Ask a Womack sales associate for more details of how Womack Pre-Fabrication Solutions would be right for your company and next project. You and your bottom line will be glad you did!

MADE IN AMERICA

Womack Electric Supply proudly offers "Made in America" contracting solutions for the real world, saving you time, money and labor.

All products are UL listed and compliant with the Buy American provisions set forth by the American Recovery and Reinvestment Act of 2009 (ARRA).

boost productivity & your bottom line

POWER UP PRODUCTIVITY & POCKET THE PROFITS

Struggling to increase the productivity of your contracting business? Respond to high labor costs and compressed schedules by utilizing products with productivity "designed in". Womack Electric Supply's Pre-Fabrication Solutions can make it happen. With our pre-fab wiring solutions, much of the typical electrical assembly is completed in advance, dramatically cutting project completion times and reducing labor cost. The bulk of these labor savings will drop straight to your bottom line!

OFF THE SHELF SOLUTIONS

Standard wiring application pre-assemblies make for quick and easy installations. Off the shelf solutions include data drops, masonry stubs, single and double gang switching and outlet assemblies and more. If your project is substantial or repetitive, such as; a hospital, condominium complex, office building or hotel, look to our off the shelf pre-fab wiring solutions products to get the job done.

WITH OFF THE SHELF SOLUTIONS & QUICK AND EASY INSTALLATIONS

DO MORE WITH LESS

Wondering how you can save time, labor and money on your next project? With labor being the largest expense in commercial job inputs, it only makes sense to eliminate unproductive activities. Womack Pre-Fabrication Solutions allows for completion of projects large or small with fewer employees on site; allowing you to spread out your manpower to multiples projects and pursue additional work. That's great news at a time when good help is hard to find.

PRE-FAB IS THE ANSWER

Our pre-fab wiring solutions allow you to adapt, be proactive and pre-plan for your next project; adjusting to the jobsite issues that affect your productivity and profitability.
