TOOLS & SAFETY CATALOG

womacktools.com

ALL TOOLS ARE NOT CREATED EQUAL

They're as unique as the men and women who use them. Ask any tradesperson and they'll tell you that their favorite tools just feel "right" in their hands. They may be dirty and beat up and noisy, but they get the job done every time. The right tool is one you can count on.

You hold in your hands the Womack Tools & Safety Catalog. It is a testament not only to our commitment to bringing you the right tools and safety equipment for your jobs, but also to our recognition that each of our customers has a distinct set of needs. Your company's formula for success is unique, and our shared focus is on maximizing that formula's potential.

This catalog doesn't just show off tools, it can be a powerful tool in and of itself. It can energize you with new ideas, encourage you with helpful information and inspire you to see the promise in every job.

You can count on Womack Tool Sales & Service. We may not hit the mark every time, but the goal of our efforts is always genuine: to help our partners succeed. That's the Womack Advantage, and we include it in every product and service we supply.

Keep Your Tools In Peak Operating Condition

REPAIR SERVICES

It's safe to say that when your tools are not working – you aren't working either. Keeping your tools in peak operating condition is truly vital to your success. Helping you keep your tools in proper working order is the goal of Womack Tool Sales & Service Center.

Our Team Is Dedicated To Your Success

Womack Tool Sales & Service provides you with the efficient, time-saving value of a single equipment and service source for all your tooling needs. Our support team has decades of combined tool sales and service experience with the knowledge and know-how to meet your job-site tooling and safety requirements and to exceed your deserved high service expectations.

Tool Repair – Simplified

With each Womack branch serving as drop off locations for tool repair services, the logistics of tool repair has never been easier. We will handle the shipping of your tool to the repair center, provide you with a quote of repair cost and notify you when your repaired tool is ready for pickup at your

local Womack branch. To ensure minimal down-time, we maintain an ever-growing in-house parts inventory of many major tool and equipment manufacturers. We stand behind every repair we make with a 30-day labor warranty.

You can depend on Womack Tool Sales & Service to be there for you, providing you with the quality, reliability and performance you expect and deserve from your tools.

For Professionals... Since 1857™

Since 1857, the company operated by Mathias Klein and his descendants to the fifth generation, has grown and developed along with the telecommunications and electrical industries where Klein pliers first found major usages. Today, Klein Tools, Inc. represents much more than Klein pliers. The company's product line has broadened to include virtually every major type of hand tool used in construction, electronics, mining, and general industry in addition to the electrical and telecommunications fields.

Today, the Klein brand is the #1 preferred hand tool in the electrical industry, as well as one of the leading brands used in the maintenance, construction, and industrial trades. Loyalty to Klein Tools is strong due to Klein Tools' commitment to professional tradesmen; professionals feel the difference every day.

Be sure to visit our website at www.womacktools.com where you can search the complete line of Greenlee products. Should you have specific questions or need more information on Klein products, applications or standards, do not hesitate to contact us today.

Superior Products – Superior Service. It's the Womack way.

Burndy Battery Powered, Hydraulic and Mechanical Tools

***Experience.
Technology. Answers.™***

On the mark ... and standing behind it. Since 1924, BURNDY has been at the forefront of technological innovation. BURNDY tooling delivers a key component in creating a conforming electrical connection while providing users an ergonomic and reliable design with safe crimping and cutting capabilities.

In fact, Burndy products come with the assurance of the BURNDY® Engineered System. BURNDY coordinating dies, connectors and tools are designed to work together to meet the highest conformance standards in the electrical industry. When improving products or debuting new ones, BURNDY is committed to ensuring they continue to work with the BURNDY pieces you already have. And with BURNDY world-class tool support, training and customer service, help is always at your fingertips.

Be sure to visit our website at www.womacktools.com where you can search the complete line of BURNDY products. Should you have specific questions or need more information on BURNDY products, applications or standards, do not hesitate to contact us today.

Industry Leading Professional Grade Assembled Products

For over 40 years, Coleman Cable (CCI) has been a leader in the development of innovative wire and cable products. Today, CCI utilizes more than 2 million square feet of strategically located, state-of-the-art, ISO-certified manufacturing and distribution facilities nationwide and offers one of the most diversified lines of industrial, electronic, and assembled products available. CCI's growing brands are some of the strongest and most respected in the assembled products industry.

This catalog contains a sampling of the vast array of professional grade assembled products from CCI. With cord features like vinyl jacket moisture, abrasion and sunlight resistance, reinforced blade technology, strain relief molded plugs, and anti-marring outer jacket coating; count on CCI to be your complete cable solution, and you'll be able to handle today's toughest applications... and tomorrow's.

Be sure to visit our website at www.womacktools.com where you can search the complete line of CCI products. Should you have specific questions or need more information on CCI products, applications or standards, do not hesitate to contact us today.

The Professional's **FIRST CHOICE**

Quality. Service. Performance.

**PIPE TOOLS & VISES
SINCE 1896**

Reed Manufacturing has been producing fine tools for worldwide professional trades since its founding, in 1896, by Carl Reed. The company was purchased in 1902 by Reuben Wright with money he made selling water and hardware during the 1849 California Gold Rush, followed by successful timber businesses in Wisconsin, Michigan, and Western Pennsylvania. The company continues to be operated by his descendants: fifth generation members of the Wright family. Mark Wright and Scott Wright serve as President, Manufacturing & Product Development and President, Sales & Finance, respectively. At Reed in several roles for more than 25 years each, Mark and Scott uphold the family traditions of product innovation, highest quality pipe tools, great customer service, a cutting edge factory and extra value to customers.

Be sure to visit our website at www.womacktools.com where you can search the complete line of REED products. Should you have specific questions or need more information on REED products, applications or standards, do not hesitate to contact us today.

comfort and compatibility

3M believes that health and safety is first and foremost about safeguarding worker welfare. A secure, safe working environment is paramount in any business. But improving worker protection, comfort, durability and productivity is a more ambitious goal; one 3M firmly believes in. 3M doesn't take safety for granted. The health and welfare of your workforce depends on it. So, by working in association with skilled safety practitioners, partners and customers, 3M is committed to ensuring they help you create an environment that protects your workforce— effectively, efficiently and economically.

For decades, 3M has been an innovator in worker health and safety. 3M offers an extensive family of Personal Protective Equipment (PPE). In addition to bringing new innovations to the market, 3M is constantly enhancing products with new technology and materials. It is this commitment that has allowed 3M to remain at the forefront of worker safety. Trust your PPE to a company that has the support and services you've needed for decades past and can rely on for years to come. Trust 3M.

Quality Products
Trusted Worldwide

Leading Safety Design For Over 25 Years

 **Elk River, Inc.**[®]
Personal Fall Protection

There is a science to product manufacturing which requires research, testing, and methods. There is also an art to designing products, how it feels, how it wears, how it looks. Each Elk River product is a blend of these ideals: The art represents their traditional values; the science reflects their use of technology in product development.

Since 1988, with a focus on maintaining quality and high standards, Elk River has grown to produce more than two thousand personal fall protection and safety products. Elk River is continually seeking out new products and ways to make existing products better. If we do not think it is safe, we will not make it...period. That is traditional values.

Elk River's test facilities are modern, and provide the ability to test on-site to meet the standards of any country. All Elk River products meet or exceed the following applicable standards, as product labeling specifies: OSHA regulations, ANSI Standards, CSA Standards, and other applicable standards at time of manufacturing.

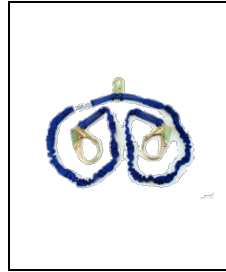

Be sure to visit our website at www.womacktools.com where you can search the complete line of Elk River products. Should you have specific questions or need more information on Elk River products, applications or standards, do not hesitate to contact us today.

Access the inaccessible

Since its beginnings, the Petzl mission has remained constant: to offer practical solutions that allow people to progress. Today, that pioneering spirit, passion for exploration, and ethic has not changed. More than forty years later, Petzl continues to invent products and provide solutions that allow professionals to access some of the most inaccessible places, both day and night.

Petzl provides equipment for work-at-height professionals; including fall arrest, work positioning, personal escape, and difficult to access and confined space systems. Verticality product offerings include harnesses, helmets, lanyards, ropes, connectors, pulleys and more. Lighting product offerings include compact, versatile headlamps for hands-free lighting applications. Petzl lets you access the inaccessible.

Be sure to visit our website at www.womacktools.com where you can search the complete line of Petzl products. Should you have specific questions or need more information on Petzl products, applications or standards, do not hesitate to contact us today.

THE
WOMACK
 ADVANTAGE

Every product we sell comes standard with the Womack Advantage. That means that every product you buy from us comes with something extra. Order a part and we'll throw in a sales representative who asks questions and makes recommendations to simplify installation, a warehouse team that double checks your order for accuracy and packs it carefully to minimize damage, a delivery driver who goes out of his way to help you unload the right parts in the right place, and a support staff that understands what customers need to make a profit on every job. As you can see below, each part of the Womack team exists to help you to succeed.

OUTSIDE SALES

The knowledge and experience to provide innovative solutions.

INSIDE SALES

The resources and enthusiasm to solve any problem.

OFFICE SUPPORT

The connections that put it all together.

PURCHASING

Ensuring that you have what you need when you need it - even if you don't know it yet.

CREDIT

Making your money easier to manage.

PROJECT SALES

Giving you control of your quotes.

SALES SPECIALIST

New ideas and the edge you need.

COUNTER & WAREHOUSE

Committed to accurate orders, each and every time.

DRIVER

On time and where you want it.

MANAGEMENT

Keeping the focus on our partners' success.

ACCOUNTING

Expect accuracy, count on flexibility.

MARKETING

Helping you to tell the world.

OPERATIONS

A partner you can be proud of.

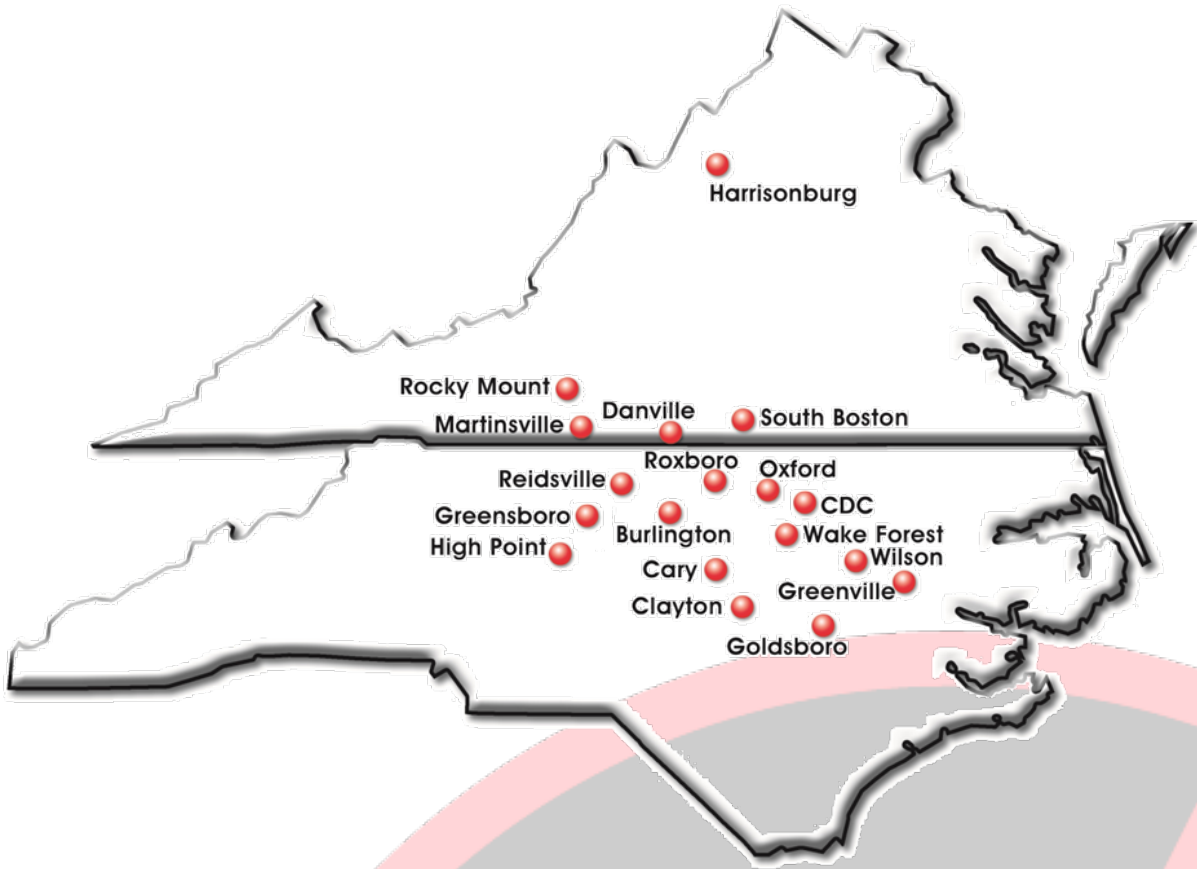

IT

Making information more powerful.

HUMAN RESOURCES

A great team starts with great people.
