Residential Pre-Fab Solutions

Pre-fabricated electrical products are often only thought of as being a solution on commercial jobsites. The truth is, pre-fabrication solutions are useful anywhere there are repetitive work activities being performed and there is a need to speed up production on a jobsite. Residential jobsites, like commercial jobsites, offer many opportunities for increased productivity.

Womack Pre-Fabrication Solutions residential product offerings help you to eliminate those unproductive activities that cost you and your company time and money. Whether you're providing temporary power for several projects starting at once, or fast tracking a/c unit wiring, count on Womack Pre-Fab Solutions to have the products you need, in-stock and off the shelf, for quick and easy residential electrical installations. No more heading to the lumber yard to buy 4x4's and spending valuable time putting the assemblies

together. No more cutting non-metallic conduit and THHN, or connecting electrical wires to pullouts. With Womack Pre-Fabrication Solutions, these time consuming task have been completed for you, allowing you to focus on additional projects, increased production and other profit producing activities.

Keep reading for more details of how Womack Pre-Fabrication Solutions would be right for your company and next project, including residential applications.

Quick & Easy Installations

TEMPORARY POWER POLE

Never worry, if you get a last minute call to set a T-pole, about whether or not you have any available. Womack's pre-wired and pre-assembled temp pole assemblies are MEG approved, comes complete with ground wire, ground rod and clamp. Nothing else is needed, besides post-hole diggers. Womack's Pre-Fab Solutions Underground Temporary Pole Assemblies are the perfect solution for construction site temporary power.

AIR CONDITIONING WHIPS

Eliminate the time consuming task of creating A/C whips at your jobsite. Womack's pre-assembled A/C whips come complete, pre-wired and best of all, ready for immediate installation.

Air conditioning whip choices include the standard ACWHIP-8, and the AC-DC-WHIP-8 which includes a 60A 240V non-fused pre-wired pullout disconnect.

TEMPORARY POWER POLE ASSEMBLY

UTPS-MEG-50-20-20-CHD

Underground temporary pole service assembly. MEG approved w/ 1-50A 240V Receptacle, 2-20A 120V GFI Receptacles. Includes 1-50A GFI 2p breaker, 2-20A 1p breakers, ground wire, rod & clamp.

AIR CONDITIONING WHIPS

ACWHIP-8

8' NM Flex Whip w/3 #8 THHN conductors (Black, Red, & Green) & 2 straight 1/2" NM connectors.

AC-DC-WHIP-8

60A 240V N/Fused AC P/Out Disconnect with 8' NM Whip w/3 10' #8 THHN Conductors (Black, Red, & Green). Includes mounting hardware & straps.

Why Choose Pre-Fab? It's about Productivity!

THE LABOR VARIABLE

Hiring skilled workers, or keeping them on the payroll once they've been trained, is getting tougher. Tying your skilled labor to a jobsite to manage common installation tasks, cost you both time and money, and in today's market place is simply something you cannot afford to do. When you use Womack Pre-Fab Solutions products, most of the assembly is complete, and ready for installation, allowing you to schedule your workforce to provide your company with its best profit making potential.

IMPROVED CASH FLOW

Getting off the jobsite faster; and on to the next job, helps to improve your cash flow. Womack Pre-Fab Solutions allows for completion of projects large or small with fewer employees on site; allowing you to spread out your manpower to multiple projects and to pursue additional work.

Completing the common tasks quickly also allows for additional time to be focused on up-sell products and solutions on the jobsite.

NO TRAINING REQUIRED

Womack Pre-Fab Solutions are designed to provide quick and easy installations with no training required.

Give Womack Pre-Fabrication Solutions products a try – you'll be glad you did!

See What Others Are Saying ...

"System productivity is the primary factor affecting the job's overall productivity. A correctly designed and applied system reduces the non value-added work, such as material handling, on the job site."

- Electrical Contractor Magazine

Womack Pre-Fabrication Solutions eliminate unproductive, time wasting activities that cost you and your company time and money.

CUSTOM Pre-Fabrication

Sometimes straight out of the box just doesn't get the job done. At times like this you could use a custom solution – one that is suited to your specific needs and to your unique application.

Womack Custom Solutions can help. Our in-house, custom design specialist is ready to meet with you, review your needs, and, where plausible, work to provide a custom solution when run of the mill just won't work.
