

THE HEAT IS ON

*Stay safe this summer.
Stay hydrated on the job.*

Exposure to the threat of heat stress has been cited as a hazard under the General Duty Clause and, therefore, adherence to the OSHA guidelines on worker hydration would seem to be advisable so as to avoid liability under §5(a)(1).

OSHA also states that an employer has the obligation to provide portable water under the sanitation standards of the Code of Federal Regulations. "Portable water" is defined as "water that meets the standards for drinking purposes of the State or local authority having jurisdiction, or water that meets the quality standards prescribed by the U.S. Environmental Protection Agency's National Primary Drinking Water Regulations. 29 CFR 1910.141(a)(2).

In light of the General Duty Clause and OSHA's "portable water" requirements, it is strongly advisable for employers to implement a hydration plan and always ensure the ready availability of water on the job site.

Cat. No. **55600**

Pro Tough Box Cooler

- Keeps cool up to 30 hrs
- 17 qt., 18 can capacity
- 300 lb. seating capacity
- No rust, stainless hinge

COOLER
\$47.99

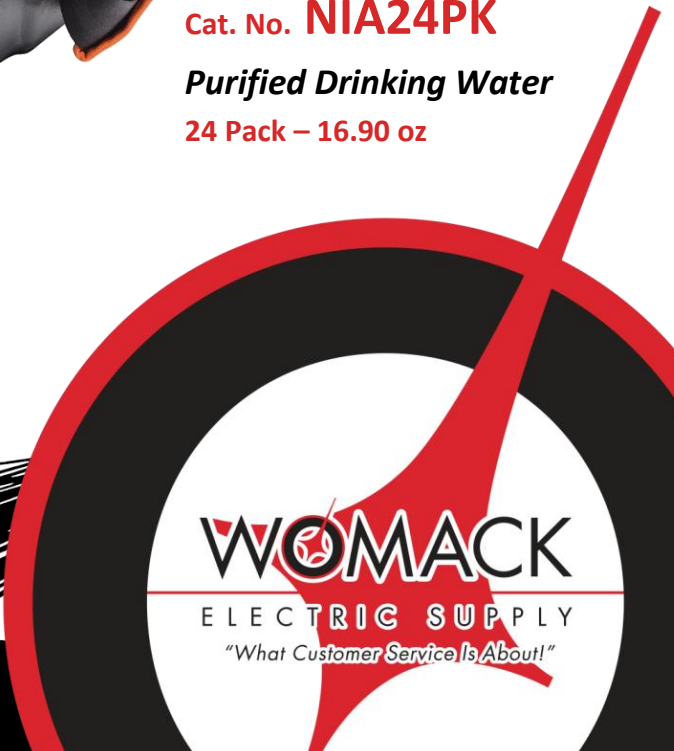

WATER
\$3.99
PER CASE

Cat. No. **NIA24PK**

Purified Drinking Water

24 Pack – 16.90 oz

WOMACK
ELECTRIC SUPPLY
