CABLOFIL CABLE MANAGEMENT

Designed to be **Better**

Cablofil wire mesh tray is the perfect choice for data and power cable pathways in commercial and industrial building projects. It can be installed quickly using smaller crews to reduce your costs up to 50% in many cases.

Safe-T-Edge design eliminates sharp edges increase safety for installers and cables.

UL Classified for electrical continuity and as an equipment grounding conductor (EGC).

Patented Optimized Wire Design reduces weight to support the greatest working load.

Load tested to support loads that exceed its fill capacity per NEMA VE1.

Certified to withstand 1800°F heat for 90 minutes for safer building exits

FAS (Fast Assembling System)

supports Cablofil tray on walls, ceilings or underfloor installations without the need for additional hardware.

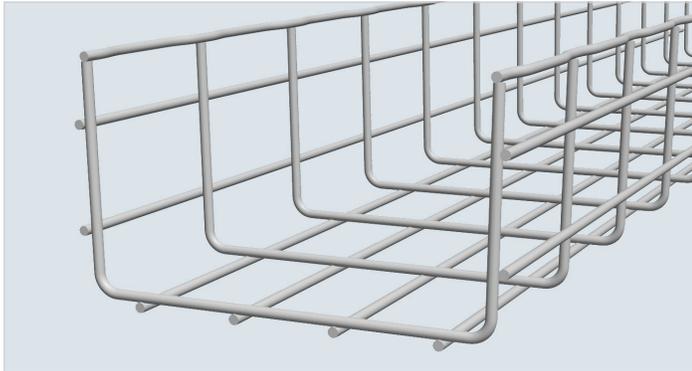

Cablofil has a splice for every need.

Our EDRN Splice reduces splice time by 50% over bolted connections. Other splice options give additional strength or improved electrical continuity – the choice is yours.
