

We Take The Guesswork OUT OF YOUR WORK

Our customers told us how we could help them to succeed, and we listened. As a result, our three Womack Service Guarantees will take a lot of worry out of your work. After all, the less time you spend thinking about your orders, the more attention you can pay to your bottom line.

Fill Rate Service Guarantee

You don't get paid to wait; you get paid to work! Consequently, you should never have to wait for basic parts and products that you use every day. Womack Electric Supply guarantees that more than 250 of our most in-demand products will be in stock whenever you need them, period. Expect 100% fill on these products – we guarantee it.

Error-Free Billing

You wear too many hats to add “accountant” to the mix. It's a lot

easier to get paid by your customers when your own bills are accurate and simple to understand. We promise to get your billing right the first time, every time.

Error-Free Shipping

When you're ready to start on a task, there's nothing as frustrating as finding the wrong parts in your box. You never need to worry when it's a Womack Electric box. We guarantee that you'll get the parts you ordered so you can get to the work you planned on.

We put our money where our mouth is. If we miss the mark on any of these three promises, we'll give you a \$25 Womack Customer Service Guarantee Certificate to be used on your next purchase. Questions? Just ask your Womack Electric Supply representative.
