

## Electrical Equipment & Supplies

---

IM Supply is the premier solutions provider for electrical equipment and supplies in North America. IM Supply offers a broad scope of products from a unique mix of manufacturers, delivering options that standard distribution models simply cannot match, including lighting products, fuses, controls, general supplies, wiring, cables, conduit, and more.

Supported by a network of more than 3,000 distribution locations, members receive dedicated attention from local distributors. IM Supply proudly partners with locally-owned distributors who are connected to the communities they serve. Stocking locations may also be able to provide same-day deliveries, helping members get products on site quickly and when they're needed most.

IM Supply distributors are experts in lighting, controls, wiring devices and energy efficient products as well as safety/security items which E&I members can utilize to accomplish the following objectives:

- Create a physical space which enhances the teaching and learning experience
- Reduces energy costs and helps facilities reduce their 'carbon footprint'.
- Protect and enhance the quality of the facility's power supply.
- Enhance security levels for teachers, students, and visitors.

### Contract Highlights:

- Delivery from over 1,000 stocking locations
- Significant focus on customer service
- Market basket price lists
- Aggressive category discounts
- Tiered rebate structure
- Detailed implementation launch plan
