Plan, Prepare & Respond

The Centers for Disease Control & Prevention have posted interim guidance for businesses and employers to plan, prepare and respond to the Coronavirus Disease 2019 (COVID-19).

This guidance and other important COVID-19 related information can be viewed at [cdc.gov](https://www.cdc.gov).

The health and safety of their employees is a top priority for every business. The COVID-19 pandemic has impacted everyone and is forcing every business to address the issues of how keep business open, and up and running while protecting employees during the process.

As employers consider how best to mitigate the spread of COVID-19 and lower the impact in their workplace, some key factors to consider are:

- ✓ reducing transmission among employees,
- ✓ maintaining healthy business operations, and
- ✓ maintaining a healthy work environment.

Everyone at Womack Electric Supply knows these are trying times and we continue to keep our thoughts with everyone who is affected by this pandemic. We are all in this together and we want to do all we can to help you to plan, prepare and respond to get your business back to business during and after COVID-19.

Womack Electric Supply is open, and ready to serve you. Our proactive team remains vigilant and agile so that we can continue to respond in a way that protects our people and our customers while still serving our very essential business partners. We remain committed to providing you with the product and service resources you need to continue working safely, while protecting the health of your employees.

FR1 Face Shield

Made and Fully Assembled in the USA

Key Features & Benefits

FDA approved wide lens material with uncompromised peripheral, upward and downward vision.

Lightweight design that fastens securely to your head ensuring the face shield moves with you.

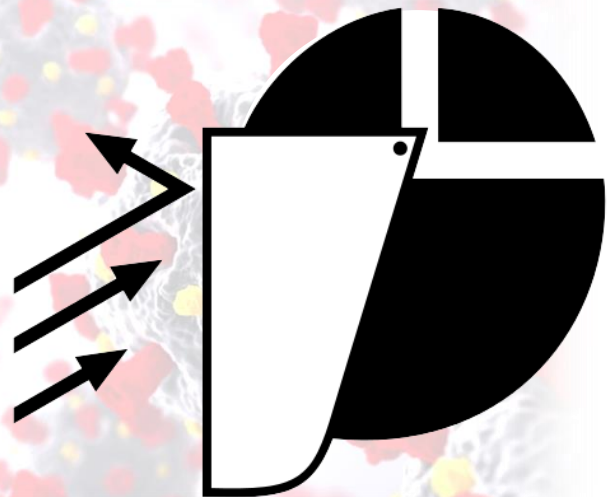

Industrial foam padding for increased comfort.

Easy surgical tie lets you tie this once and forget about it. Easily removed and put back on without re-tying.

The FR1 shield is to be used in accordance with CDC guidelines for emergency use only.

Compatible with N95 type masks. N95 mask NOT included.

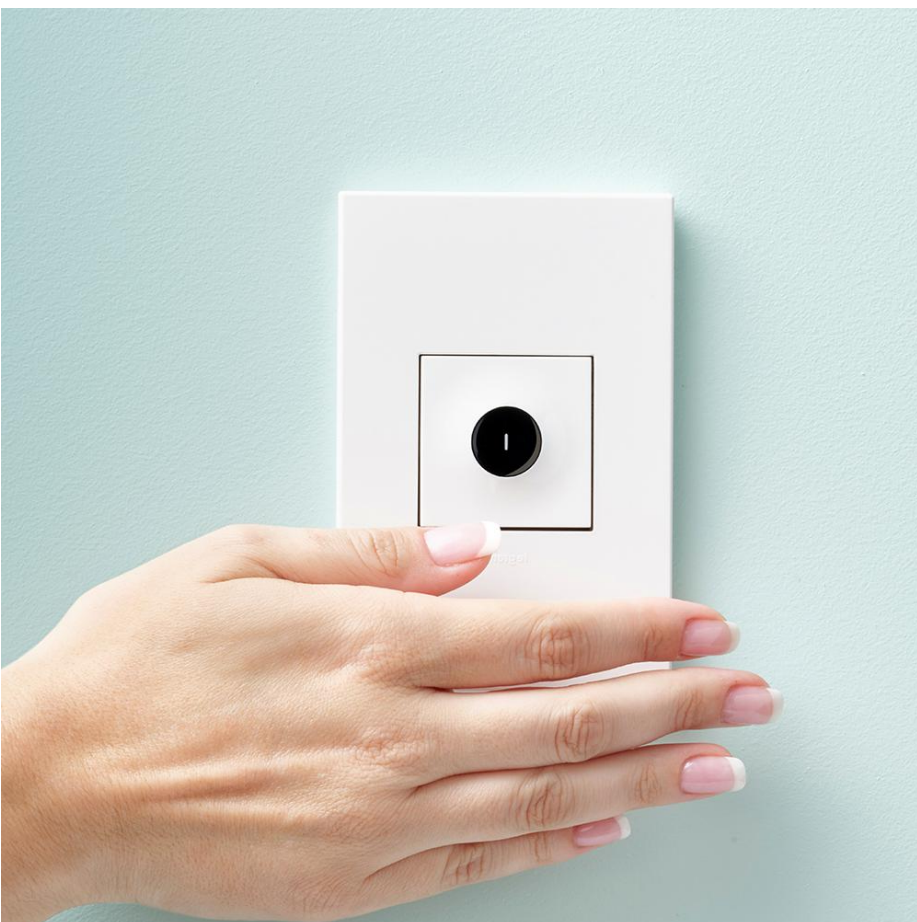

Ensure you are using respiratory protection, this device is NOT a respirator.

Wave Style Switches

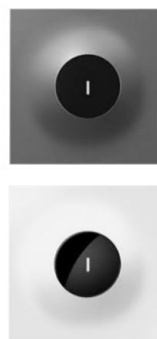

adorne® Wave Style Switches feature innovative technology combined with sleek, contemporary design. Simply wave your hand in front of the switch to turn lights on and off. The Wave is ideal for areas where touch free lighting automation is preferred. It has a preset sensor distance of approximately 4". However, this can easily be adjusted to sense movement from 1" to 6" in front of switch. Wave Switch includes a Locator Status Light which adds illumination and makes it easier to locate in the dark.

Wave Switch Applications

- Offices
- Conference Rooms
- Hallways
- Break Rooms
- Restrooms
- Entryways

1. Select Wave™ Switch

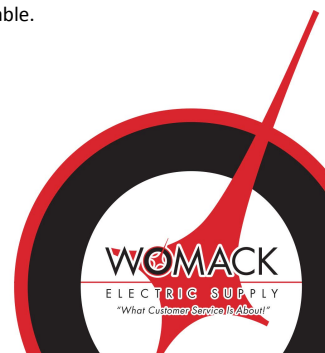

2. Select Wall Plate

Switch and wall plate sold separately. Sample plates shown - multiple styles available.

Leviton Antimicrobial Devices: Combat the Spread of Germs with a Complete Antimicrobial Solution.

Available in a variety of colors!

Antimicrobial Treated Switches

- 20 A - 120/277 VAC
- Available in Toggle, Decora Plus, and Lev-Lok configurations with the toggle or rocker embedded with silver ion antimicrobial technology
- Single pole and three-way functionality

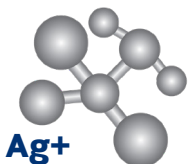

Antimicrobial Treated Wallplates

- Stainless Steel wallplate and mounting screws treated with antimicrobial polyurethane powder coating
- Available in single- or double-gang configurations
- Powder coating resists fingerprints and has been tested to ISO 7784.2 for durability

Designed for Habitual Abuse...

TOUGH and CLEAN. Made durable in order to withstand harsh chemical cleaning products, stringent washings, and UV lights with minimal wear and tear. Inhibits 99.9% of bacterial growth on frequently touched switches and wallplates in between normal cleanings. Leviton Antimicrobial Switches are made of thermoset urea, making them more resistant to chemicals and ensuring a longer service life.

Antimicrobial Treated Devices from Leviton are manufactured by incorporating silver ions (Ag+) as the antimicrobial agent in the product material. This material has been tested to the international standard JIS Z 2801:2000 and has been shown to be 99.9% effective in reducing the growth of harmful bacteria.

Help stop the spread

COVID-19 Safety Solutions

In partnership with Brady, Womack Electric Supply is supplying signs and signage solutions to help fight COVID-19 during this rapidly changing global challenge. With healthcare and public access signage as priority, these signage solutions are key reminders of what to do to help stop the spread of the virus. Check out what's available for your needs right now, and visit BradyID.com/COVID19 for more products and updates.

For signage, posters, printing systems and more, Womack Electric Supply and Brady are ready to assist you.

PORTABLE UV SANITATION CARTS

UV lights can disinfect coronavirus and bacteria in commercial and industrial facilities without needing to come into contact with surfaces or objects.

IND-CD-48-2L-UVC-50C Industrial UV Sanitation Cart - Corona Virus -400 sq. ft. Area - 50' SOOW Cord

Equipped with two UVC fluorescent lamps, this system offers 39.6 watts of output, within the 200nm - 280nm UV-C range (254 nm). The lights have an expected lifespan of 8,000+ hours and emit a flood beam pattern. This UV system covers up to 400 square feet of space with 180 degrees of coverage. Operators may move the cart around after exposure time to disinfect several sections. With a recommended 20-25 minute exposure time for viruses.

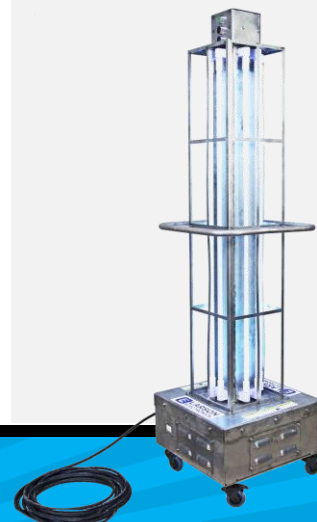

IND-UC-48-4L-UVC-50C Industrial UV Sanitation Cart - Corona Virus -800 sq. ft. Area - 50' SOOW Cord

Equipped with four UVC fluorescent lamps, this system offers 79.2 watts of output, within the 200nm - 280nm UV-C range (254 nm). The lights have an expected lifespan of 8,000+ hours and emits a flood beam pattern. This UV system covers up to 800 square feet of space with 180 degrees of coverage. Operators may move the cart around after exposure time to disinfect several sections. With a recommended 20-25 minute exposure time for viruses.

IND-UC.360-48-8L-UVC-V1-AT-KT-50C Industrial UV Sanitation Cart - Corona Virus - 3500 sq. ft. Area - 304 Stainless Steel - 50' Cord

Equipped with eight UVC fluorescent lamps, this system offers 480 watts of total output, within the 200nm - 280nm UV-C range (254 nm). The lights have an expected lifespan of 13,000+ hours and emits a flood beam pattern. This UV system covers up to 3,500 square feet of space with full, 360 degrees of coverage. With a recommended 20-25 minute exposure time for viruses. Cooling fans below the lamps keep the unit running optimally.

Protection Follows You

Sentry M2

MOBILE UV DISINFECTING UNITS

With the Sentry M2, protection follows you. The Sentry M2 are affordable mobile UV disinfecting units designed for easy positioning and simple control. It emits broad spectrum UV light to eliminate up to 99.9% of the bacteria, viruses, and fungi in a space¹. In rooms that have been cleaned of mold, the unit will help control return growth if used routinely².

The compact units have two UV Light Engines in a lightweight, miniaturized design. Mounted on a wheeled or tripod base, the M2 units have a telescoping neck and adjustable UV head angle for perfect spot treatment where contamination is suspected.

Powered by
Violet Defense™ technology

Lightweight, wheeled base with locking casters and a telescoping neck for easy positioning.

Broad Spectrum UV-C, UV-B, and UV-A Light to kill bacteria and viruses.

Simple single-cycle operation with occupancy detection for safety.

Two UV Light Engines with pulsed Xenon lamp for 170° coverage over 144sf.

1. Study Report August 2017, "Antimicrobial Effectiveness of Puro Device", using modified ASTM International Standard Test Method E1153.

LTK-WRISTKIT

Wrist Temperature Measurement Kit with Floor Stand

Product Overview

LTK-WRISTKIT takes a photo of every entry and stores it with wrist-measured body temperature data. Event logs can be stored and accessed via a PC software. The digital detection module supports rapid body temperature detection. Thus, the product can achieve face recognition and temperature detection at the same time, and support warning people with abnormal body temperature. It can be widely applied in the crowded places, such as smart communities, schools, office buildings, hospitals and other important areas.

Product Features

- Support non-contact detection of wrist temperature, support warning people with abnormal body temperature
- Support the detection of wrist distance, improve the accuracy of temperature measurement
- Support body temperature detection and personnel information binding, which can quickly confirm personnel information and do body temperature detection
- Support configure temperature detection threshold value, and personnel access authority can be configured through temperature detection threshold value
- Non-contact wrist temperature detection module, measurement range is between 30°C to 45°C (86°F - 113°F), measurement accuracy can reach 0.1°C, measurement deviation is less than or equal to 0.3°C, and measurement distance is between 1cm to 4cm
- Deep learning algorithm model based on independent intellectual property rights, face recognition accuracy rate > 99%, false rate < 1%
- Built-in deep learning dedicated chip, supports local offline recognition, 10,000 face capacity, face whitelist (1: N)
- Fastest recognition time 0.2 seconds, various model merge mode are used to reduce false rate and increase pass rate

- WDR, 2MP (1080P) low illumination wide-angle camera and F1.6 large aperture lens for capturing high quality image with various complex lighting scenes
- Support anti-spoofing detection based on deep learning algorithm, effective against fraud such as photo and video
- Support face metering and human metering for fast adapting to ambient light
- Suggested height for face recognition: between 0.8m and 2.2m, face recognition distance: 0.2m to 2.9m
- Support screen sleep mode, keep the minimum brightness to prevent glare at night
- Support add up to 6 photos of the base library for a single person
- Support video capture, support ONVIF protocol
- Support face, card, password and QR code authentication to control door open
- Two-way audio with indoor monitor
- Built-in 4G EMMC front end storage, stable and reliable, up to 8,000 events capacity (with images)
- Support tamper protection, support door open timeout and time exceed alarm function to keep door opening during fire alarm active

Product Specification

Features Parameter	Description
Operation System	Linux
Face Recognition Accuracy Rate	>99%
Face Recognition Time	200ms
Face Capacity	10,000
Card Capacity	100,000
Storage Capacity	4GB
Event Capacity	8,000 (with images)
Measurement Range	30°C - 45°C (86°F - 113°F)
Measurement Accuracy	0.1°C
Measurement Deviation	≤0.3°C
Measurement Distance	1cm-4cm
Authentication Mode	Face Whitelist: (1: N)
	Card:(1:N)
	Face +Body temperature
	Mask Detection
Door Opening Method	Face, Password, QR code, Card
Communication Mode	10/100Mbps adaptive network port
Card Type	Mifare 1 Card
User Management	Support user library addition, deletion, update
Record Management	Support local recording and real-time upload
Interface	LAN×1, Wiegand Input×1, Wiegand Output×1, RS485×1, Alarm Input×2, Alarm Output×1, USB2.0×1, Lock×1, Door Contact ×1, Exit Button×1
Power Supply	Input 12V±25% DC
Screen	Touch Screen, Size:7 inch, Resolution: 600×1024
Camera	Dual Lens, 2MP, 1080P
Supplement Light	LED soft light and infrared light
Dimensions (L×W×H)	For terminal : 134.0mm×33.0mm×305.0mm (5.28" × 1.30" × 12.0")
Working Environment	For terminal: -20°C-65°C(-4°F - 149°F), Relative Humidity<95% (non-condensing) For module: 10°C-40°C(50°F - 104°F)
Protection Level	Both terminal and module: IP 54
Application Situation	Indoor, No wind

LTK – WRISTKIT QUESTIONS & ANSWERS

Q: How accurate is the temperature measurement?

A: +/- .9 degrees F (99%)

Q: How long does it take to register a person's temperature?

A: .2 seconds

Q: How long does it take to recognize someone's face?

A: The more a person encounters the unit, the quicker recognition occurs. First use is normally a couple of seconds gradually reaching a normal of .2 seconds.

Q: Is there any reason for anyone to touch the unit?

A: No. All features are non-contact. Facial recognition can occur up to 4' away and temperature scanning occurs 1" from the unit.

Q: Can I use the WristKit without connecting to my network?

A: Absolutely, The unit can "stand alone" and be used for facial recognition, mask detection, and to scan body temperature, without being connected to any network. Connecting it to your network and using the free software allows you to send alerts to multiple employees (Gate Keepers, HR, and Security) in the event someone requests to enter and is detected to have a temperature and/or not have a mask.

Q: Can I use this to deny/approve access to my facility?

A: Yes, You can even choose to use this as a record of attendance if you desire and pre-load employee photographs to deny access to others. A set of dry contacts allows this to be connected to electronic locks. You can then set the unit to release the door lock once any or all of the following criteria are met:

- 1) Facial Recognition,
- 2) Acceptable Body Temperature
- 3) Face Mask in Place.

Q: Can I customize the message when a high temperature or lack of facemask is recognized?

A: Yes. For instance, one facility may choose for the unit to say "High temperature detected, please wait here for further instructions". Another might have the unit say "High temperature detected, please report to room 101 to your left" You can customize the instructions the unit gives.

Q: Is the unit waterproof?

A: No, as with most electronics, the unit and stand should be placed indoors out of the weather. All of the electronics however are installed several feet above the bottom of the stand, so wet floors or even minor flooding will not affect the unit.

LTK – WRISTKIT QUESTIONS & ANSWERS

Q: Does the WristKit compensate for ambient temperature? Does it need to be installed in a heated & cooled area?

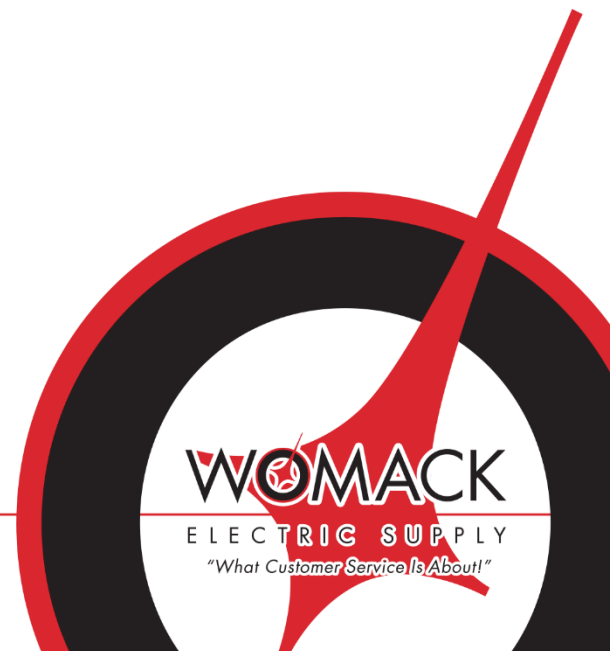

A: It does, the system should be placed in a controlled environment though (out of direct sunlight and wind). Optimum operating environment for the temperature module is 50 – 104 degrees F.

Q: What is the warranty?

A: The tablet, temperature scanner, and pedestal are all covered by a 2 year warranty of materials and workmanship. Full warranty details can be found at WWW.LTSECURITYINC.COM

Q: How long have you been making these units?

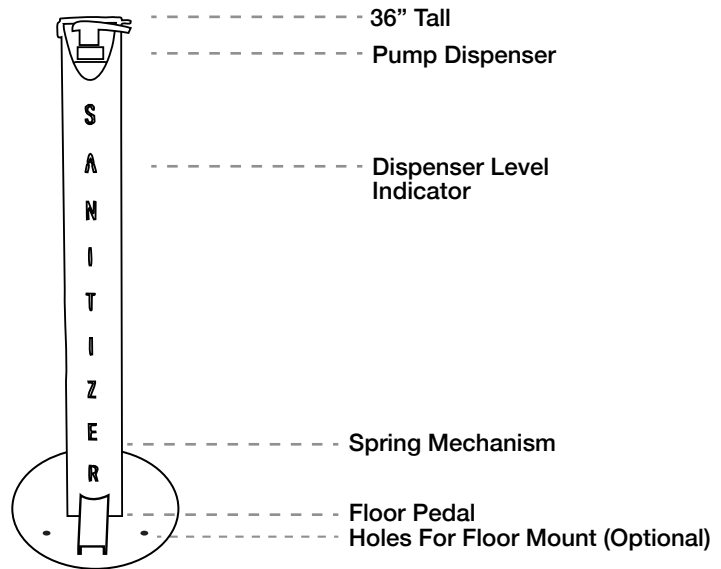

A: Combining facial recognition with mask recognition and temperature scanning is a relatively new concept, but LTS has been in the camera and security business for over 70 years. We provide you with an additional level of security by only selling through authorized distribution that you can rely on.

TECHNICAL DATA SHEET SS-2020

FOOT OPERATED HAND SANITIZER STAND

Features

- Hands Free Operation with Floor Pedal
- 1,700 Pumps of Sanitizer (32 ounce bottle)
- Dispenses Accurate Sanitizer per the CDC
- Indoor/Outdoor Use
- 36" Tall
- 15 lbs
- Ships Fully Assembled
- Made in USA

Material

- Powder Coated Steel
- 16 gauge Thick Metal
- Waterproof

Installation

- Freestanding or Floor Mount

Codes/Standards

ADA

CSA B651

OBC

Limited Lifetime Warranty

- See website for details warranty information.

ONLINE BILLING

Online billing delivers your bills to you electronically and allows you to view, sort, print, pay and import your account bills.

VIEW AND PAY YOUR BILLS ONLINE

YOUR ACCOUNT IS ALWAYS
PROTECTED

ACCESS ANYWHERE

During this time of national emergency, as we all deal with the effects of COVID-19, it is important to take precautionary measures, such as social distancing, to protect the health of yourself and your employees.

Here is how Womack Electric Supply can help you and your business...

ONLINE SHOPPING & WES CONNECT APP

- Place orders from anywhere you can go online
- Access account inquiry and order history
- Schedule your orders for pick-up or delivery
- Compare selected products side-by-side
- Download product specification sheets
- Convenient and easy to use reorder pad
- Desktop or mobile access via app
- Download via App Store or Google Play

CURBSIDE ORDER PICK-UP SERVICE OR NO SIGNATURE DELIVERY SERVICE

- Contact your local branch or representative
- Place your order via phone, email or online
- Pick-up curbside or await scheduled delivery

ONLINE BILLING & ACCOUNTING SERVICES

- Efficiently manage accounting processes
- Secure, easy-to-use access portal
- View, sort, print, research, & pay online
- One time & ACH payments
- Download data to your accounting software
- Save time & money
