Jobsite Camera Solutions

An ideal video monitoring solution with no cords and no wiring hassles, when in areas with limited or no WiFi access or no electrical power source.

A monitored jobsite ...

- ✓ ***is more safe & secure!***

Discover safety issues before they turn into real problems. Provide detailed real-time feedback on needed improvements.

- ✓ ***deters theft and shrinkage!***

Provides 24/7 coverage giving would be thieves second thoughts about whether jobsite is an easy target.

- ✓ ***is more productive and efficient!***

Remotely monitor and audit jobsites to create better project management and jobsite efficiencies.

- ✓ ***remains on schedule!***

Monitor employee performance, document processes and provide live feedback remotely.

SOLAR
POWERED

Features & Benefits

100% Wire-Free

Free from messy cables and wiring hassles. Works independently to provide live feed.

Solar Powered

Non-stop reliable power supply via rechargeable battery.

Night Vision

Captures the smallest details even in low light conditions.

HD

True 1080p (1920*1080) full HD provides clearer and sharper images/videos.

110° Wide Viewing Angle

Provide wider field of vision, cover more areas, and reduce blind spots.

IP65 Certified Weatherproof

Braves it all, rain, or shine, intense cold or heat.

PIR Motion Sensor

Smart PIR sensor detects if anything is wrong and triggers alerts.

Intelligent Alerts

Get app push notifications, emails, and sound alerts (siren) in real time.

Two-Way Audio

Built-in mic & speaker to listen in and talk back interactively.

Live View Anytime Anywhere

Live viewing via Windows PC or mobile app anywhere & anytime.

Motion Detection Record

Record motion events for playback on Windows PC or mobile app.

Customized Voice-Recordable Alerts

Record your own alert message and get notified with it when motion is detected.

White Quick-Mount

Single Camera Solution

(shown below)

"The jobsite cameras are a great asset to the project. These cameras provide security and the convenience of viewing the jobsite 24/7 at my fingertips. The system is so easy to use and having access from my mobile phone is amazing. There are times when my busy workday does not allow me to visit a jobsite, so pulling up the app on my phone where I can view the entire jobsite from several cameras helps ease my mind. Also, on my most recent project when power was not available at the time, the solar cameras were perfect. Thanks!"

Brad Hartsfield, Project Manager
East Point Homes, LLC., Quadrant Construction, Inc.

Understanding Your Needs

The world of construction is changing as companies struggle with recruiting skilled workers, the demands of investors and rising accident and crime rates. Construction materials are at an all-time high and according to estimates, the construction industry loses \$1 billion per year from theft and vandalism, with the majority of losses happening on nights and weekends, when no employees are present. Additional losses are encountered, at unmonitored jobsites, in the form of worker unproductivity, ineffective materials management and the lack of process improvement.

Our Commitment

Womack's Field Services division understands these challenges and is committed to providing superior product and service solutions to help owners, builders and project managers keep their projects safe, secure, productive, and efficient. Womack Field Services offers expanded jobsite service offerings to ensure that projects remain on schedule and are more productive and efficient while also providing for a safer and more secure work site that deters theft and shrinkage. Womack Security Solution's security camera risers provide 24/7 coverage, monitoring and recording site security, safety, efficiency and more, all while allowing you opportunity for real time access, feedback and process management.

Established in 1938, Womack Electric's customer centric philosophy serves to focus our efforts on consistent conformance to customer expectations for quality products and professional service. We understand that our own success is a direct result of the success of those we serve. We articulate this philosophy every day in the capabilities and pride of workmanship of every Womack Electric employee serving you.

Womack Electric is proud to be a member of the Crescent Electric Supply family and is dedicated to being the leading distributor of quality products and value-added services. Crescent Electric is one of the eight largest electrical distribution companies in the U.S. Crescent Electric serves contractors, as well as, commercial, institutional and industrial customers with a broad line of electrical, lighting, industrial, automation and datacomm products from 160+ branches nationwide.
