

CAPABILITY STATEMENT

Resolve One Inc., is in the business of supplying custom ideas, strategy and product-service solutions that keep projects profitable and on schedule. We make projects repeatable and predictable, by improving actions – allowing key stakeholders to better plan, organize, direct and control project variables. Our products and services streamline projects from beginning to end; increasing productivity, reducing labor and waste, saving time and money.

CORE COMPETENCIES

- ✓ **Fabrication**
 - Design
 - Press Brake
 - Welding
 - Sheering
 - Laser Cutting
 - Riveting
- ✓ **Finishing**
 - Galvanizing
 - Powder Coating
- ✓ **Electrical Prefabrication**
 - Design
 - Repairs
 - Duct Bank
 - Temp Power
 - Assembly
 - Upgrades
 - Flex Whips
 - Supports
 - Pre-Wire
 - Transformer Racks
 - Control Panels
 - FASS Racks
- ✓ **Staging & Storage**
 - Receiving & Spec Verification
 - Conditioned Storage
 - Live Inventory Access & Tracking
 - Freight Claims
 - Scheduled Releases
- ✓ **UL Listings**
 - Electrical Assemblies - E470935
 - Incandescent Luminaires - E480090
 - Conduit & Cable Hardware (Resi-FASS Rack) - E473231
 - Enclosures - E496552
 - Control Panel Shop - UL508A

PAST PERFORMANCE

Bryant Durham Electric

- Staging and storage of \$1.3 million worth of fixtures
- Defect detection
- Freight claim handling
- Pre-fab whipping and fixture repair
- Warranty issue avoidance
- Scheduled delivery services

Watson Electrical

- FASS Rack conduit support systems
- Fabrication & galvanizing
- Solved labor and completion schedule efficiency variables
- Powder coated transformer stands
- Light fixture modification

Cooper Electrical Construction Co.

- FASS Rack conduit support systems
- Saved 15,000 work hours at job-site
- Pre-fab assemblies
- Power module line up
- Pre-fab cable tray systems
- Powder coated conduit
- Man-power efficiency support

Starr Electric

- FASS Rack conduit support systems
- Powder coated transformer stands
- Temporary power skids
- Pre-fab electrical assemblies

Network Wireless Solutions

- High-volume steel fabrication & galvanizing of components for cell tower industry

DIFFERENTIATORS

- Solutions bridging design, application, equipment and successful installation
- Project consultation – needs analysis reviews
- In-house design, UL fabrication & finishing workshop
- ARRA compliant – Made in America
- Reigns in project constraints via accurate estimations
- Resolves skilled worker and labor shortages
- Ensures efficient use of time and labor on projects
- Staging and storage eliminates long lead times
- In-storage, pre-wires & repairs eliminate downtime
- Custom solutions for all construction markets

COMPANY PROFILE

RESOLVE ONE INC.
