- Trained business development manager
- Project efficiency
- Extensive local inventory
- Jobsite deliveries and logistics
- Project staging and storage
- Training opportunities
- Total project management capabilities

# EV Charging Solutions

**Leading the way in smart EV charging solutions...**

Our electric vehicle charging solutions are one of the most effective and highly visible ways to prove your commitment to sustainability. No matter what your needs are, we have an EV charging solution that will work for your application, including:

## **Home Charging Solution**

Powerful, safe, convenient EV charging from your home ensures your vehicle is ready to go!

## **Multi-Family Solution**

Appeal to modern renters with eco-friendly EV charging solutions for apartments and condos.

## **Commercial Solution**

Put your company on the map of the emerging EV market, add a green dimension to your corporate image, and provide a valuable amenity all at the same time.

## **Fleet Solution**

Streamline your fleet operations, reduce fuel costs, and manage carbon offset with smart EV charging solutions.

## **Retail Solution**

Make a visual statement of your company's commitment to sustainability and provide an EV charging station service for your customers.

## **Charging as a Service**

Provide a green amenity and gain an additional revenue stream. Womack Electric Supply works with EV manufacturers that are experts in the market and that provide turnkey solutions allowing you to add EV stations to your property and charge for the service.

## **Contractor & Property Owner Support**

Womack Electric Supply and our suppliers are committed to providing you with the knowledge you need to implement EV charging solutions. We help with...

- Requirements for EV charging at your property
- BOM preparation and quotation services
- Benefits analysis for smart charging services
- Assistance with location and installation support
- Simple and easy installation, setup, and maintenance

## Our Commitment

As experts in the electrical industry, Womack Electric Supply Company is your source for energy saving solutions. We can help you navigate the complex world of innovative renewable energy products, new technologies and financial incentives to help you recognize a timely payback.

Established in 1938, Womack Electric's customer centric philosophy serves to focus our efforts on consistent conformance to customer expectations for quality products and professional service. We understand that our own success is a direct result of the success of those we serve. We articulate this philosophy every day in the capabilities and pride of workmanship of every Womack Electric employee serving you.

Womack Electric is proud to be a member of the Crescent Electric Supply family and is dedicated to being the leading distributor of quality products and value-added services. Crescent Electric is one of the largest electrical distribution companies in the U.S.
