Womack Electric Supply is With You All The Way. Explore the Possibilities...

The speed with which solar projects proceed to completion has highlighted the importance of an expert supply chain that can keep disruptions from happening on the ground. When you partner with Womack Electric Supply you partner with a supplier with a proven track record of successfully meeting and exceeding the demanding and ever-changing needs of contractors within the industry.

Our team of dedicated professionals are with you all the way ... from needs analysis during project development; to working to ensure engineering requirements are met before product procurement; to handling the logistics of product flow and more. We back all this up with a suite of support services designed to bring efficiency and productivity to your company. We call this the Womack Advantage – a partnership that allows our customers to focus on business while we take care of everything else.

We thank you for the opportunity to work with you learning about your business, your goals, and strategies. Like you, we value relationships and look forward to discussing with you how Womack Electric Supply can enhance your profitability. Included within are a sampling of value-added product and service solutions which could benefit your company. Read on to explore these possibilities. Let us show you what customer service is about!

PROJECT MATERIALS MANAGEMENT INVENTORY SOLUTIONS

Storage • Staging • Kitting

Womack Electric Supply's Project Materials Management solutions provides for the warehousing of customer owned materials to manage inventory or provide storage when job site conditions will not allow. Your ordered project materials are shipped directly to one of Womack's Direct Through Stock (DTS) facility warehouses to be received, inspected, stored, and staged until delivered to your job site in kitted assemblies, Conex containers, or other packaging and shipping methods.

Womack's 72,000 sq. ft. bonded and insured Danville, VA DTS Facility is one of the largest of its kind in the Southeastern U.S. Customer Warehouse, Smart Consignment, Remote Site and On-Site Personnel inventory solutions are also available.

Benefits To You...

- Maintained Construction Schedules
- Increased Organization, Productivity, & Jobsite Efficiency
- Saves You Money On Time & Labor Cost
- Reduces Material Jobsite Damage Potential & Shrinkage

LOGISTICS COORDINATION

Womack understands that the management of inventory in motion and at rest is critical to the effective operation of any project.

We coordinate logistics solutions via a hub/spoke method with our CDC fulfilling the stocking needs of our branches to ensure you always have the parts you need at just the right time, with service from any location regardless of where your account is based with Womack.

PRE-FAB & CUSTOM SOLUTIONS

Womack partners with Resolve One Inc., to assist you to analyze need, develop effective designs, and implement solutions for pre-fab or custom project needs.

Resolve One is a UL shop offering fabrication & finishing, staging & storage, electrical prefabrication for power, cabling solutions, control panels, racking assemblies and much more. Learn more at www.resolve-one.com.

TOOL SALES & SERVICE OPTIONS

Womack is a singular equipment, and service source for all your tool needs. Whether it's ergonomic hand tools, test equipment, or multi-functional power tools and accessories, we have the right tools for your job.

For your convenience we offer tool management and tracking services, tool outfitting for crews and fleets, and in-house warrantied tool repair services.

Additional value-added service solutions available. See back cover for further details.

Our Commitment

As experts in the electrical industry, Womack Electric Supply Company is your one-stop source for renewable energy products and service solutions.

Established in 1938, Womack Electric's customer centric philosophy serves to focus our efforts on consistent conformance to customer expectations for quality products and professional service. We understand that our own success is a direct result of the success of those we serve. We articulate this philosophy every day in the capabilities and pride of workmanship of every Womack Electric employee serving you.

Womack Electric is proud to be a member of the Crescent Electric Supply family and is dedicated to being the leading distributor of quality products and value-added services. Crescent Electric is one of the largest electrical distribution companies in the United States.
